

Senior UI/UX Designer with more than 4 years of experience delivering modern, user-centric mobile and web application designs. Specializes in transforming complex business requirements into intuitive digital products, scalable design systems, and high-converting interfaces. Passionate about combining research-driven insights with interactive prototyping to drive user engagement and project success.

Experience

Zigron Inc. | Islamabad, Pakistan

UI/UX Designer | July 2022 – Present

- **Spearheaded end-to-end UI/UX strategy** for flagship web platforms, mobile apps, and enterprise dashboards, including Worker Shield, IYZIL Solutions, and Iylus Smart Security.
- **Delivered end-to-end digital experiences for MUST ecosystem**, designing multi-platform mobile applications, responsive websites, and digital media assets across Mnetwork, AAN TV, Mmall, Mkart, Mnews, MSports, Mworld, and mcare.
- **Designed travel booking application Trip Boing**, architecting end-to-end user flows, search/filtering UX, and hotel/flight booking interfaces comparable to Booking.com.
- **Engineered web application & site for Lagoniko** and structured high-impact pitch decks for Ordder, elevating visual storytelling and stakeholder communications.
- **Architected scalable design systems** and comprehensive Figma component libraries, standardizing visual assets to accelerate cross-functional engineering workflows.
- **Led user research & usability testing** initiatives to analyze user behaviors, map intuitive journeys, and eliminate workflow friction through high-fidelity interactive wireframes.
- **Partnered with cross-functional leadership**, product managers, and client stakeholders to align product design strategies directly with key business objectives and delivery timelines.

UI/UX & Graphic Design Intern | March 2022 – June 2022

- **Assisted senior product designers** in building interactive prototypes, custom UI component sets, and high-fidelity wireframes for enterprise client platforms.
- **Strengthened technical expertise** across rapid prototyping, layout design, visual hierarchy, and brand identity development within agile sprint environments.

Skills

Core Capabilities: UI/UX Design (Mobile & Web Apps), Dashboard & Web App Design, Landing Page Design, Wireframing & Interactive Prototyping, Design Systems & Style

Guides, Usability Testing & User Research, Pitch Deck Presentations, Visual & Graphic Design

Tools & Software: *Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD, Adobe After Effects, Canva, Zoom, Google Meet*

Professional Competencies: *Cross-Functional Collaboration & Leadership, Complex Problem Solving, Stakeholder Engagement, Attention to Detail, Time & Project Management*

Education

*B.S. Media and Communication | **2018 – 2022 Foundation University Islamabad, Pakistan***
